

XOOPS Website is going live with XOOPS 2.3 - XOOPS

NEWS\_PDF\_AUTHOR: webmaster

NEWS\_PDF\_DATE: 2008/9/26 10:30:00

As they say, you should eat yourself what you cook, therefore we are pleased to let you know that we've updated the XOOPS Website to XOOPS 2.3!!! 🍴

This will allow you now to use the new Private Messaging module, i.e. you'll be able to save your PM messages that you send.

Also, the new Extended DHTML is now standard for all comments and Forums.

If you discover any problems or anomalies, please let us know.

FYI - the update was relatively painless, all the modules work fine, and we didn't lose any blocks. We've upgraded from XOOPS 2.0.18.2

XOOPS Version - XOOPS 2.3.0

PHP Version - 5.2.5

MySQL Version - 5.0.51a-log

The XOOPS Team
