

AM Contact v0.07 released - Modules

NEWS\_PDF\_AUTHOR: AndyM

NEWS\_PDF\_DATE: 2008/10/12 17:50:00

This release has been checked to work with XOOPS 2.3, and has had two more anti-spam/bot verification methods added.

As well as its question/answer and built-in image captcha, it now uses XOOPS image captcha for consistency with XOOPS and/or other modules that use it. Also, the third party image captcha service, reCaptcha is now supported.

The module can be downloaded from here. More info on reCaptcha can be found on recaptcha.net
