Hello,

I opened a theme demo and download site at <http://www.k-teknoloji.com/demothemes> three months ago and I decided to move this site into Official Turkish XOOPS Local Support Site: <http://www.xoopstr.org>

You can access theme demos at following link:

<http://www.xoopstr.org/modules/mydownloads/viewcat.php?cid=3>

Currently there are 169 themes and you can see themes in action by clicking Demo link or thumbnail image of theme. You can download themes by clicking download icon of theme.
