[XOOPS 2.3.1](#) was released just only two weeks ago, but we have already reached a major milestone - over [5,000 downloads](#) so far!!!

We as a Team XOOPS wanted to express our deepest appreciation for all the support we are getting from the community, for your involvement, for your help with bugs, for your creativity in developing new modules and themes!!!

But most of all, **we appreciate your support of new XOOPS users** who are joining our community!!!! You've been in their shoes, so you know how it feels to start with XOOPS and sometimes feeling lost, and then a friendly comment in the XOOPS Support Forums gets you on the way to the right solution! And for that - a big **THANK YOU!!!!**

While we are very pleased and happy with the progress, we are aware that there are still small glitches/bugs here and there, and therefore we appreciate your help in finding them, and helping us fixing them.

Please log in all bugs and feature requests, so we can keep track of them:
