JahArt Studio published its list of [CMS TOP 40 of 2008](#).

We were very pleased to see that **XOOPS was listed as #6**.

This is a second good news in the last two days. This month XOOPS was ranked as **#24 overall project** and with that the **#1 CMS project** hosted at [SourceForge](#)

Our "[Spread XOOPS](#)" campaign will hopefully contribute to more visibility and recognition of XOOPS. Every little mention of XOOPS helps. Every positive article about XOOPS helps. Please join us in spreading word about XOOPS.

We are looking for "**Marketing Coordinators**" for each country. Please [contact me](#) if you're interested.
