hello everybody

im happy to share with you another free theme : hosting theme

-Width 922px

- 3 columns

it's available in arabic and english. you can download it from [here](#), and the arabic version from <http://www.arabxoops.com>

the zipped folder contains the theme , the font used and the photoshop files.

the theme is easily editable and by changing the header you can totaly transform it to another one, and another subject.

below a screenshot, hope you will like it.
