
Lord of the rings (updated theme) - Themes

Posted by: Burning

Posted on: : 2008/12/3 12:10:00

Theme name : lotr_v3

CHANGELOG :

- bottom blocks in center column now displayed
- stylesheets put in /css folder
- theme templates put in /xotpl folder
- favicon.ico and favicon.png added
- 2 new theme templates : xometas.html + globalnav-dynamic.html
- css horizontal menu with submenus
- theme.ini added

> [theme in action](#)

> [download](#)

HORIZONTAL MENU :

- how it works ?

2 files :

- globalnav-dynamic.html, called by "include" in theme.html
- globalnav-dynamic.css, called by xometas.html

- how to customize ?

- colors : in globalnav-dynamic.css, modify "color" and "background-color" (4 instructions, see comments)
- links : in globalnav-dynamic.html, modify url with your owns and use module folder name to activate current status in navbar (xo-current)

Tested with :

- firefox 3
- ie7
- Opera9

CREDITS :

- myWebResource (lotr_v2 version)
- Kris (morphogenesis 2.10 framework)
- M.Redu (XL-one theme)
