hello,

in my community Arabxoops, we needed a free Arabic sports theme. So I made a quick one in black and red with a fixed background. (visit <http://www.arabxoops.com> to download the Arabic version). As all my themes, the PSD and fonts are included in the zipped folder.

I hope you will like it !

You can download it by clicking [here](#)

Below is the screenshot with the 3 headers

It isn't so clear but just to give you an idea
