jayjay has released his final version of **Dokuwiki**

It is based on the latest stable version Dokuwiki 2008-05-05. Dokuwiki is a great wiki system which can be extended easily with plugins. This version blends Dokuwiki into the Xoops CMS.

The main difference from the previous release is the sidebar theme. He also added some bugfixes.

Don't forget to install the latest Xoops Frameworks (Xoops 2.3+ has this included already).
