

jQuery's Quick Comment Hack for News Module - Hacks

NEWS_PDF_AUTHOR: Anonymous

NEWS_PDF_DATE: 2008/12/13 22:50:00

jQuery's Quick Comment Hack allow your site's visitors to post comments from article page directly.

Quick comment box will display at the bottom of the article instead of **Post Comment** button.

Installation:

1. Download jquery.js file ([click here](#)), then upload it to modules/news/js folder.

2. Add this line to your theme.html between :

3. edit modules/news/templates/news_article.html and replace:

with:

```
$(document).ready(function() {  
    $.get("comment_new.php?com_itemid=", function(data){  
        $('#quickcomment').append(data.substring(data.indexOf(""
```
