Hi everyone! My new Xoops-based website was put up this morning! It's called MKunite and can be found here: <http://www.mkunite.com/index.php>

The goal of MKunite is to bring together Missionary Kids from around the world. The team at MKunite is comprised of Missionary Kids themselves who understand just how much we all want to find our old, long-lost friends. MKunite is quickly becoming the place where MKs can find their old friends, share photos, tell stories, and have a great time!
