Hello,

I've opened a new website called Link-Market.net. Link-Market.net is website for backlink market traders. You can trade your links online and pay and/or get paid by paypal. You need to put a PHP or ASP code to your website in order to be part of Link-Market's customer base. Here is the link:

http://www.link-market.net

And I used following modules and core:

Core: XOOPS 2.0.18.2

Modules:
- Sitemap
- Liaise
- xhelp
- newbbex
- mastop publish
- protector
- paypal donations
- EMLH hack

I hope you'll like and use Link-Market.net 😃

Best regards
Hraç
