

webmystar Community with Xoops-2.3.2b - YAXS

NEWS_PDF_AUTHOR: webmystar

NEWS_PDF_DATE: 2009/2/16 20:00:00

I'm happy to announce that our german [Social Network](#) works with XOOPS – 2.3.2b.

I've used the follow XOOPS modules:

- For the [Blog](#) the news Modul
- For the [Netzwerk](#) the yogurt Modul (waiting for the new profile Modul by alfred 😊)
- For the [Downloads](#) the wfdownloads Modul
- For the [Forum](#) the newbb Modul

The Main Focus are the Freeware Archiv and the Blog Community.
You can find here many Themes for XOOPS and Mozilla Firefox.

In the Blog i will set the Focus on the [businessplan](#) and help you to make your own internet business.

I have rewrite the url structure with the XoRewrite Modul.

Have fun with the Xoops Site and have an good time. 😊
