Me and mojtabajml made new admin theme for XOOPS. It's called Oxygen, and is based on EXM Admin Theme. It's still beta, but I think you can use it .

Download :
you can download this theme from here.

Install :
after download and extract . move oxygen folder to

modules/system/class/gui

and select oxygen form general setting (in admin area)

If you find bugs please tell me 😁

happy xoopsing ....

Note: : if you have translation for this theme, please email me.
