

Translation tool : Xtranslate - Developer News

NEWS_PDF_AUTHOR: chco2

NEWS_PDF_DATE: 2009/3/15 1:30:00

<http://www.Designburo.nl> is pretty proud to present a contribution to the XOOPS community:

Xtranslate!

A (windows) tool that should help you translate XOOPS and XOOPS modules into your own language much easier.

It is still in development, but the current version is very useable!

Get it [here!](#) (You do need to register, but hey.. its free!)
