Translation tool : Xtranslate - Developer News

NEWS_PDF_AUTHOR: chco2

NEWS_PDF_DATE: 2009/3/15 1:30:00

http://www.Designburo.nl is pretty proud to present a contribution to the XOOPS community:
Xtranslate!
A (windows) tool that should help you translate XOOPS and XOOPS modules into your own
language much easier.

It is still in development, but the current version is very useable!

Get it here! (You do need to register, but hey.. its free!)
