

New module: Strong Password Generator - Modules

NEWS_PDF_AUTHOR: Runeher

NEWS_PDF_DATE: 2009/3/22 15:40:00

Offer your users a chance to make strong passwords or make your own passwords as strong and secure as possible with this random password generator.

Comes with language files and a block:

- * Different length up to 64 characters
- * Up to 50 passwords at a time
- * Choose to include letters in passwords
- * Choose to include Capitals Letters
- * Choose to include Numbers
- * Choose to include Punctuation
- * Choose Quantity (up to 50 passwords at a time)
- * Useful for any site with a registration system

Install as a normal XOOPS module.
