The new Web portal of [Government of Brazil's State of Paraná](#) went live on March 24, 2009, at <http://www.pr.gov.br>. This new tool of governmental communication was presented at the weekly meeting of the School of Government, by the President of the [Companhia de Informática](#)

Among the main features of the website are: \* the visual model: using color to differentiate between the subjects for their relevance \* ease of maintenance and access to government services statewide. **Since 2005 XOOPS is the system of choice for all Websites run by Government of Paraná [and there are over 300 of them](#).** You can see the portfolio of the Government of Paraná Websites powered by XOOPS [here](#) We are extremely proud that the Government of Paraná continues to power all its Websites with XOOPS, and is doing such a great job showcasing the capabilities of XOOPS. They also have a support site for their XOOPS users: <http://www.xoops.pr.gov.br/> **Congratulations to all our XOOPS friends in Brazil!!!!**
