Black and White Theme

This is a redesign of and older Black and White theme

-I made it a 100% theme.. well almost 99% ;)

-Added boxes around the menus, centerpost, and news

-Simplified and removed some of the redundant HTML

-Edited and customized the images, made for faster loading

-And some other small changes

Original Author of file: Brumie - <http://vipixel.com>

Ported to XOOPS by Tobi: - <http://www.chapi.de>

Modified by Eddo: - <http://www.fretboardnoise.com>
