Thank you so much for the token of appreciation of [my modest contribution in XOOPS Community!](#)

It is nice that there are young **charming ladies** ([Gesine Max](#)) in this community, who wish to be engaged in [XOOPS Innovations](#).

My answer, as always, is very simple - "Do not ask, what XOOPS can do for you. Wonder, what you can do for XOOPS".

Following this rule, here is my new two-columns collection for XOOPS under the conditional name "[Japan](#)" ([ixt018](#)).

From this collection you can look the first theme ([ixt018\\_01](#)) on a demo site of [IXThemes Project](#). I hope you will notice in this theme "WOW!" effect which I try to use in the themes.

You also can download [ixt018\\_01 release 1.2](#).

I wish all good luck, [Alexander](#)
