

Prayer Times Module - Modules

NEWS_PDF_AUTHOR: Anonymous

NEWS_PDF_DATE: 2009/5/12 20:40:00

www.xuups.com is happy to announce the release of **Salat module** for Muslim prayer times. This module can calculate the time of Muslim prayer according to the geographic location and you can add your own countries/cities and set default city at the prayer times block.

This module was made by Trabis based on [salat script](#).
