We offer all XOOPS users Release 1.3 of our well-known XOOPS themes from IXThemes Project.

In the 1.3 release we've corrected some errors present when viewing pages in IE6. In this download package there are total of **39 themes** from ixt002, ixt011, ixt012 collections.

Thanks **Ghia** for the help in search and correction of bugs.

In the future we will continue to correct all possible bugs in our themes. Sometimes we are helped by our users, which we very much appreciate, and we hope that more of the XOOPS community members will help us.

Thanks to all of you for using our XOOPS themes from IXThemes Project and for your help in growing our project.

We are here to help you with your current and future theme needs.

Regards,
IXThemes Project
