Hello XOOPSERS,

I came back after a long absence (for several reasons) to share together a new update to my module: **Obituaries**

With the precious contributions of **Trabis** (<http://www.xuups.com>) I could successfully update the Obituaries module, and have added a new block: "We Will Remember Them" a block to display our fallen and who have also passed away.

The block contains a random obituaries (pictures are available)

To download it [click here](#)

Thanks Trabis and many thanks to [Instant Zero](#) (because obituaries is based on birthday module created by Instant Zero).
