hello all,

my new theme is : maitesco_classic a simple and classic one with integration of JQuery Effects.

You can easily change its subject by changing the pictures in boxes folder .

The effect integrated is : sliding boxes and Caption with JQuery

(<http://buildinternet.com/2009/03/sliding-boxes-and-captions-with-jquery/>).

Also you can change sliding effects by changing div into theme.html.

In case you need to change theme name dont forget to make necessary changes to lines 21 and 22 in theme.html.

as usaly the arabic version is available on <http://www.arabxoops.com>.

Hope you will love it.
