Today, I have to tell you about my new website: a story web site. I call it small town in the [story](#).

Web site running on XOOPS2.3.3. Using the article, tag, pm, profile, plant, protector, sitemap module. At this point, I would like to thank the authors of the modules, and of BCOOL free theme! I worked hard every day on the website to make it more perfect to welcome your arrival, you are welcome to leave your valuable comments.
