XOOPS is the undisputed **#1 CMS project** hosted on SourceForge.net (see here), out of **1,280 Open Source CMS projects** registered on SourceForge.

We are also **#1** in the "Message Boards" (out of **1,147** registered Message Boards projects).

Overall, we are at the moment **#37 ranked project**, out of over **230,000** projects currently registered on SourceForge.

We hope that with the upcoming **XOOPS 2.4 release**, we'll move up in the ranking 😃

SourceForge.net is the world's largest open source software development web site. They provide free services that help people build cool stuff and share it with a global audience.

As of February, 2009, more than 230,000 software projects have been registered to use SourceForge services by more than 2 million registered users, making SourceForge.net the largest collection of open source tools and applications on the net.
