

Classic Game Tunes! - YAXS

NEWS\_PDF\_AUTHOR: hipoonios

NEWS\_PDF\_DATE: 2009/10/4 21:00:00

Today I'm launching a new website I have been working on for quite some time now. Created with Xoops of course!

The site is using a music module created by [Technical Crew Network](#).

With this module can users create their own playlist of their favourite tunes from games from their childhood.

You can see the module in action [here](#) and see my playlist [here](#).

Another info:

Theme: xt-tri by [Xoops Theme](#)

Other modules: CBB, xoopspoll, news, xdonations, contact

Visit the site:

<http://www.classicgametunes.net>

Feedback are welcome
