## New Theme on XOOPS Site - live test - XOOPS

Posted by: Mamba

Posted on: : 2009/10/7 6:30:00

The new theme for our Website goes live for testing as our main theme 😊

Please let us know in [this thread](#) , what works, and what needs still improvement.

If you have navigation problems with the new theme, and would like to use the previous one, there is a block in the right column to [switch back to Zetagenesis](#).

We are aware that there are still some cosmetic issues to fix, and your feedback and your patience are very much appreciated.

Our BIG "Thank You" to [BitC3R0](#) for all his work on making this design a reality and making XOOPS look cool!!!
