

DSL Site with XOOPS - YAXS

NEWS_PDF_AUTHOR: webmystar

NEWS_PDF_DATE: 2009/10/12 15:10:00

Hi XOOPS Friends,

I'm pleased to announce that our [DSL](#) Site is launched with XOOPS-2.3.3.

I have build the site of base on the XoRewrite Module and SimplyWiki.

The Clean Urls structur looks like: (example)

[Kabel Deutschland Internet](#)

<http://dsl.webmystar.de/anbieter/kabeldeutschland>

and

[T-Home DSL](#)

<http://dsl.webmystar.de/anbieter/t-home>

If you have questions about the structure, feel you free and ask me.

The Site use the follow XOOPS Modules:

- simplywiki
- protector
- mysearch
- altsys
- pico
- sitemap

I hope you like the site and take a look in our [Sitemap](#).

Have Fun and happy XOOPsing. 😊
