Hello everybody,

I'm very happy to present you my latest realisation :

<http://www.eg-deco.com>

This company works in the staff, ie it creates designs in plaster.

The main modules used are :

- simple content et References from [Instant-Zero](#)
- AMContact for the contact form
- Sitemap for the sitemap
- Xlanguage for use the web site in english and french

This site works on all web browsers have known that day.

In addition, a specific block has been created and displayed automatically for users of Internet Explorer 6 for their offer to download and install a browser supports the latest web standards.

Thank you all and enjoy your visit 😊
