

debaser 3 half baked released - Modules

NEWS_PDF_AUTHOR: frankblack

NEWS_PDF_DATE: 2009/10/24 0:00:00

I am quite proud to announce the release of debaser 3 half baked.

Half baked? Inspired from an ancient discussion with me I decided to introduce a new development cycle.

Half baked = Alpha

Half finished = Beta

Abandoned = Final

Due to the half baked status there will be lot of bugs and of course this module is not for production sites. Which features made it into this release:

- 1) Playlist for MP3 files (public or private)
- 2) New file manager (experimental)
- 3) Flash Uploader
- 4) Much, much jquery
- 5) Re-organisation of player and filetypes
- 6) Lame-Support for re-encoding of MP3 files
- 7) Files could be played in a modal window
etc.pp.

Upgrader from 0.92 will be in the half finished release.

Have fun!
