

My company website in Xoops !!! - YAXS

NEWS_PDF_AUTHOR: Imzan

NEWS_PDF_DATE: 2009/11/3 1:50:00

Hello community!

Finally I managed to release my company's website. Well, at least a big part of it. The website portfolio is still beta 😊 but I'm working on it! We needed to show the other products we offer, so it's a work in progress.

<http://www.elencoempresarial.com.br>

As you can see I made an experience using a template from chocotemplates.com. The modules are as usual:

- Mastop-Publish
- News
- Liaise

It's well known that when we have to do our own website, we are our worst client, now I agree with that!!

Please pay a visit, you are most welcome.

And lets spread Xoops all around!
