Maitsco portal is a new free green xoops theme for portal and news websites.

I've integrated the effect: [Featured Content Slider](#), and many others ones (pictures and headlines are from cnn news official website)

I also added an easy drop down menu in the header.

As always, the PSD files are included, and the theme is available in 2 languages: Arabic (visit [www.arabxoops.com](http://www.arabxoops.com) to download it) and English

I hope you will like it and it will be useful for all xoopers.
