Update an "old" theme - Themes

NEWS_PDF_AUTHOR: Burning

NEWS_PDF_DATE: 2009/12/24 12:30:00

Since Xoops 2.0.14, it is possible to display bottom blocks in center column. Some themes have not this feature, see Old themes album.

In most cases, update is not a complicated task. Below is one way to update :

1 • copy templates in your theme folder (from default theme) :
- theme_blockcenter_c
- theme_blockcenter_l
- theme_blockcenter_r
- theme_blockleft.html
- theme_blockright.html

2 • theme.html modifications :

a) HEAD part :

Erase (already called by if I'm not wrong):

Add (required to call blocks templates dynamically):

folderName}>

b) BODY part

Replace old canvas code by /default theme.html code :

3 • templates modifications

center blocks templates gets these tags (theme_blockcenter_c.html, theme_blockcenter_l.html and theme_blockcenter_r.html):
- : erase it
- : replace by

4 • Stylesheet modification

a) blocks

Duplicate styles for Top center blocks

```
 td#centerCcolumn {padding: 0px;}
td#centerCcolumn div.blockTitle {padding: 10px 3px 3px 15px; color: #000000; font-weight: bold; margin-top: 0px; margin-right: 0px;  margin-left: 0px;}
td#centerCcolumn div.blockContent {border-bottom: 1px solid #dddddd; padding: 5px 15px; margin-right: 0px; margin-left: 0px; margin-bottom: 3px; line-height: 130%;}

td#centerLcolumn {width: 50%; padding: 0px 3px 0px 0px;}
td#centerLcolumn div.blockTitle {padding: 10px 3px 3px 10px; color: #000000; font-weight: bold; margin-top: 0px;}
td#centerLcolumn div.blockContent {padding: 5px; margin-left: 0px; margin-right: 0px; margin-bottom: 2px; line-height: 120%;}

td#centerRcolumn {width: 50%; padding: 0px 3px 0px 0px;}
td#centerRcolumn div.blockTitle {padding: 10px 3px 3px 10px; color: #000000; font-weight: bold; margin-top: 0px;}
td#centerRcolumn div.blockContent {padding: 5px; margin-left: 0px; margin-right: 0px; margin-bottom: 2px; line-height: 120%;}
```

And replace "center" by "bottom" to apply same styles to bottom blocks.

Like this :

```
 td#bottomCcolumn {padding: 0px;}
td#bottomCcolumn div.blockTitle {padding: 10px 3px 3px 15px; color: #000000; font-weight: bold; margin-top: 0px; margin-right: 0px;  margin-left: 0px;}
td#bottomCcolumn div.blockContent {border-bottom: 1px solid #dddddd; padding: 5px 15px; margin-right: 0px; margin-left: 0px; margin-bottom: 3px; line-height: 130%;}

td#bottomLcolumn {width: 50%; padding: 0px 3px 0px 0px;}
td#bottomLcolumn div.blockTitle {padding: 10px 3px 3px 10px; color: #000000; font-weight: bold; margin-top: 0px;}
td#bottomLcolumn div.blockContent {padding: 5px; margin-left: 0px; margin-right: 0px; margin-bottom: 2px; line-height: 120%;}

td#bottomRcolumn {width: 50%; padding: 0px 3px 0px 0px;}
```

td#bottomRcolumn div.blockTitle {padding: 10px 3px 3px 10px; color: #000000; font-weight: bold; margin-top: 0px;}
td#bottomRcolumn div.blockContent {padding: 5px; margin-left: 0px; margin-right: 0px; margin-bottom: 2px; line-height: 120%;}

b) Main and user menus

To get nice menus, check display: block; instruction
Quote:
Quote:

#mainmenu a {display: block;}
#usermenu a {display: block;}

If you update an "old" theme it would be nice to put a download link in comment
