

What's new at the TDM (Team Development Module) - Modules

NEWS_PDF_AUTHOR: Lord_Venom

NEWS_PDF_DATE: 2010/2/4 16:40:00

It's been eight months since the TDM (Team Development Module) has been created, so it's time to make a small summary about the progress of our activities.

During that time TDM has created eleven modules: five paid modules (yellow) and eight free modules (blue). Here are the new and important updates:

[size=xx-large] TDMTchat 1.0 [/size]

UPDATE: 04/02/2010

TDMTchat: is a module of instant conversation between members, based on the facebook chat, it allows your members to look for another user and have a private chat line.

[size=xx-large] TDMSound 1.3 [/size]

UPDATE: 25/01/2010

TDMSound: is a new module for managing audio library. This module includes a ajax, listening, ratings, playlists.

[size=xx-large] TDMAds 1.0 [/size]

UPDATE: 19/01/2010
