

Volga light - my first ever theme - Themes

NEWS_PDF_AUTHOR: deka87

NEWS_PDF_DATE: 2010/2/9 18:10:00

Hi guys,

This is actually the first thing I ever designed in my life, and it turned out to be a xoops theme. Based on a Bleek's framework, it is extremely simple and light. If not use it, I hope you will at least check it out. Thanks in advance!

Demo is unfortunately unavailable, but you are welcome to download it from [here](#) (direct link).

Regards,

Deka87
