[Auto owner's manuals](#) is a website made on Xoops. If you lost your [car manual](#), or you bought used car, this is solution for you.

Some of brands are: [Toyota](#), [Lexus](#), [Mercedes](#), [Skoda](#), [Volvo](#), [Volkswagen](#), [Suzuki](#), [Subaru](#), [Smart](#), [Pontiac](#) and [many more](#).

It's made to be simple, however there are some bugs to be cleaned.

Some modules used:

- smartsection
- defacer
- planet

The site is still in beta, coz we're updating our manuals base (it's gonna take while), but this is the main idea and concept.

Check out [Auto and Car owner's manuals](#)

Url: <http://www.autoownermanuals.com> (no screenshot, just visit) :)
