Binaries 2.00

XOOPS Version : 2.0.0 / 2.5.X

It's a new binaries management module with redirection versioning support.

Features:

- Secure download storage
- Bin Touch folder
- Hits counter
- HTACCESS Seo
- Tagging support
- Comments rules
- URL redirection

Description:

Binaries is a module which allows you to specify and open filename in your downloads folder. The download path is <http://yoursite.com/bin/> which ensure that your downloads in the downloads directory support for a large amount of redirection and control mechanisms.

It has mime support and you can add your own mimes as well. There is also a user interface and htaccess SEO. For a demo check out <http://www.chronolabs.org.au/binaries/>

Price: \$29.95 USD

To purchase this module goto <http://www.defense.io/cart.php>
