Directory 1.56

Features:

- Orderable list
- XOOPS Permissions
- XOOPS Cache Used for speed

Interact With:

- Profile Module

Description:

Directory is a module which provides a searchable profile directory based on the fields stored in profile, it allows for a drill down list to be propagated with people belonging to a user group in a drill down list.

Your clients will be able to search the list for any details they have populated in it, completely compatible with all version of the Core distributed module profile.

To purchase a copy of this module please goto <http://www.defense.io> and complete and order form.

Price: \$ 49.95
