

Your Shop with XOOPS -- Shoops now goes alpha. - XOOPS

NEWS\_PDF\_AUTHOR: tuff

NEWS\_PDF\_DATE: 2002/11/8 12:07:59

Shoops is an online shopping module based on [osCommerce](#), [NSNCart](#), and XOOPS of course. Shoops integrates features from the upcoming version of XOOPS, the Smarty Template Engine, which allow users to design the look and feel of their own online shop.

For more information please visit <http://www.brandycoke.com> or see how it acts at <http://www.shoops.org>.

Shoops is released under the terms of the GNU General Public License (GPL).

NOTE: Shoops requires the CVS version of XOOPS at the moment, 3.0.x is not supported.
