Umfrage Polls module for XOOPS updated to 1.1 - Modules

NEWS_PDF_AUTHOR: noctane

NEWS_PDF_DATE: 2010/3/26 21:40:00

Ignacio Segura and Juan Calzado proudly present our upgraded version for Umfrage, a polls module forked from XOOPSPoll.

This new release adds the following features:

 * You can limit the number of options a voter can mark in a multiple-choice poll.
 * The voter can be notified by email that his vote has been properly saved.
 * Cookie and IP voting restrictions optional.

Besides that, the module is now fully translated to Spanish.

Download: here

This new version has been supported by the UPSJ (Unión Progresista de Secretarios Judiciales)
