

XOOPS among Top 10 Open-Source Platforms to Build a Social Network - XOOPS

NEWS\_PDF\_AUTHOR: Mamba

NEWS\_PDF\_DATE: 2010/3/30 6:20:00

XOOPS was just selected as one of the "[Top 10 Open-Source Platforms to Build Your Own Social Network](#)"

As stated there:

Quote:

Xoops is an innovative extensible open-source platform that allows you to create a social network with everything you need. You can actually just begin by creating your own blog and then upgrading it to a social network through the use of several community modules.

But there are some more positive news! 😊

Recently **WebmasterFormat** posted a [very good article about XOOPS](#) , stating:

Quote:

After several years of suffering a development drought, Xoops is quickly regaining its hold on new webmasters and pushing to become a premier open source CMS once again.

It's nice to see that all the hard work of our Community is being recognized and seen positively by growing number of reviewers.

We would like to encourage all members of the XOOPS Community to help us in making XOOPS the best in can be! Every little help is important and appreciated!

We need your help in writing Documentation, and updating some of the older modules (see [Blue Move](#)), and helping new members of our community an the [support Forums](#)!

**Always remember: "XOOPS is Powered by YOU!!!"**
