Is April we received the [sad news that Dutch court dismisses our claims against Herko Coomans](#). They didn't say that we were wrong in our claims, but only that our XOOPS Foundation didn't show the court that it was the right party to sue. While we're evaluating a possible appeal, our work on XOOPS goes forward. Most importantly we have released our [2009 XOOPS Annual Report](#) so you can see that we keep our financials in a transparent and correct fashion. Also Eduardo Cortés released his cool module framework: RMCommon Utilities.

Highlights of the last month:

- [RMCommon Utilities 2 and MyWords 2 \(Alpha\)](#)
- [Sad news for XOOPS Community: Dutch court dismisses our claims against Herko Coomans](#)

04. XOOPSers of the Month

Our "**XOOPSer of the Month**" Award is given to XOOPS members who show extraordinary dedication to XOOPS, and go the extra mile for XOOPS. Sometimes they do something spectacular, but most of the time they just do something everyday, but by doing it day-in and day-out, they make a **BIG DIFFERENCE** in life of XOOPS community. And we thank them for that!!!

This month, we would like to recognize **Aitor Uskola** ([Aitor](#)) from Spain for his continues support on XOOPS Spain and his series of [XOOPS Videos](#) in Spanish.

I like Galeria, I learn with it PHP and XOOPS. A lot of people collaborated on it, and while some of them left, I hope that they will come back.

05. XOOPS Innovation Award

Our **XOOPS Innovation Award** is given to people who create something very unique and very innovative for XOOPS! We are clear that XOOPS can only succeed, when we push the limits of our creativity, imagination, and innovation to "infinity and beyond" 🏆. And therefore we would like to recognize people who create this "WOW!" effect, when we see what they've done. The **XOOPS Innovation Award** is not a monthly award, i.e. theoretically, there might be a month where we won't give one, but we certainly hope that this will never happen 😊

This month the first Innovation Award goes to **Eduardo Cortés** ([BitC3R0](#)), from Mexico, for his innovative work on the [RMCommon Utilities 2 and MyWords 2](#) This is a second "XOOPS Innovation Award " for Eduardo!! Congratulations!!!!

What do you like the most about XOOPS?

Simplicity and modules, I think that XOOPS is a platform very easy to use for beginners as well as for advanced users. XOOPS has a lot of potential!

Why did you decide to work on RMCommons?

Because I was feeling that XOOPS needs something more in graphical aspect and in the functionality. So I decided continue with my old Common Utilities project but with a lot of new features and functionality. I'm working on RMCommon improvements and a better integration with XOOPS in all aspects.

You just released the Alpha version. What are the future plans for RMCommons? How do you envision the Final version?

Well, thins are going very fast, In next days I will release a new version of Common Utilities and, maybe, in this month final version will be available.
