We are very pleased to announce that thanks to a tremendous effort by [Burning](#), we have now a XOOPS Themes demo site: <http://themes.xoops.org>

There are currently 1,945 themes there, but we're sure that very soon there will be over 2,000 of them for your review and testing 😊

[Burning](#) also linked all the themes there to our [Theme Gallery](#), i.e. if your are in the [Theme Gallery](#) and want to see how the particular theme looks like in a real Web environment, you just need to click on the "preview icon":

and a new window/tab will open showing you the [XOOPS Themes Demo site](#) with your selected theme.

[Burning](#) is one of our most dedicated XOOPS supporters. Already twice "[XOOPSer of the Month](#)", he continues to provide a tremendous support for this community and we truly appreciate his help, support, and dedication!!!

Thank you, Burning!!!!
