Hello,

Almost 4 years after the first release of overclocking.es we hit once more with the 2.0 version of the site.

4 years, 5000 users and 60.000 post in forums have made us more wise, more strong and, of course, older 🍷 but we keep the illusion same as the first day we opened.

We move from 2.0.14 to 2.4.4 with many modules and a lot of hacks.

Hope you enjoy the site and thanks to all xoops community for making our lives easier with a fantastic knowledge sharing and an amazing CMS.
