XoopsLang : Language management GUI available - XOOPS

NEWS_PDF_AUTHOR: fdav136

NEWS_PDF_DATE: 2002/11/18 23:30:31

XoopsLang V0.1 is a draft tool designed to manage language PHP files on your entire Xoops Site.
As i said it's a draft developped on msAccess2K (sorry) quickly.
If someone wants to port it as a xoops admin module, (s)he will be wellcome.

Download it and try it on a test xoops site

All comments & suggestions ...
Thanks
