Detailed guide on installing Xoops on IIS. - XOOPS

NEWS_PDF_AUTHOR: jctsup1

NEWS_PDF_DATE: 2002/11/20 3:34:43

I've been running Xoops on my site for well over 3 1/2 months now & I constantly get emails from people asking for help on installing Xoops on their IIS Web Servers.

I decided to take the time and created a step by step guide on how to install Xoops on an IIS Web Server.

Things covered in the guide: all the files needed, configuration of PHP and MySQL, & the actual installation of Xoops on an IIS 4, 5, or 5.1 Web Server.

Enjoy!

Jeffrey C. Tindillier, CIW

I've been running Xoops on my site for well over 3 1/2 months now & I constantly get emails from people asking for help on installing Xoops on their IIS Web Servers.

I decided to take the time and created a step by step [guide](#) on how to install Xoops on an IIS Web Server.

Things covered in the guide: all the files needed, configuration of PHP and MySQL, & the actual installation of Xoops on an IIS 4, 5, or 5.1 Web Server.

Enjoy!
