

XOOPS Resource Book - XOOPS

NEWS\_PDF\_AUTHOR: Burning

NEWS\_PDF\_DATE: 2010/7/17 12:50:00

We are pleased to release our first **XOOPS Resource Book**.

This book is a document to facilitate the exchange of information about XOOPS resources, particularly modules. It is not an offline repository (there is no module description), just a step to build it with your help.

## HOW TO READ THIS BOOK

You need a pdf reader (Adobe acrobat reader 7 at least). You can easily navigate through the book by using bookmarks or search function.

*Click on Bookmarks icon to display the summary*

*Enter your keyword and navigate thru results*

## HOW TO HELP

Our aim is to propose an updated modules repository on <http://www.xoops.org>. The Module Team needs your help to :

- **find new modules, plugins, hacks, translations**

We currently have listed more than 850 resources, found on various websites in various countries. Without you telling us about the download links for each resource, they would not be present in this book.

- **find latest versions**

We would like to propose - whenever possible - the latest version of each modules and the

current “release”. If you find a more recent version of a module or if you have improved a module, please send us the download link.

- **correct errors found in Xoops Resource Book**

Some information listed below may be wrong: credits, version, release date, download link broken... If you detect an error, please add a sticky note and send us your correction(s)

- **test modules**

For each module, we will have to provide a complete description. If you have any useful information, do not hesitate to send your description(s).

- **improve [ww.xoops.org](http://ww.xoops.org) module repository organization**

Any idea about categories? Please help us to make the repository more easy to use and to update: describe categories, add tags, provide free icons, etc.

To help, you can use Xoops.org forums or correct this book by yourself (Acrobat reader 7.0 min.).

1. *Click on Review and Comment and on Add Sticky Note*

2. *Place your sticky note where you want and fill it*

3. Save the pdf and send it to [babylonbyxoops \[AT\] gmail \[DOT\] com](mailto:babylonbyxoops@gmail.com)
