I'm happy to present my new XOOPS - website MH - Booking ([Buchhaltung Leipzig](#)). I have build the website for a client. He is with the usability of XOOPS very happy. 😊

The XOOPS 2.4 - Site use the follow XOOPS Modules:

- simplywiki
- logcounterx
- contact
- protector
- XoRewrite and .htaccess for optimized urls

I have set the Focus of the following Points:

- [What do you value your accounting](#)
- [Who we are](#)
- [What we offer](#)
- [What we cost](#)

I hope you like the site. 😊
