Hello

I'd like to share with XOOPS Community our newest website in XOOPS 2.4.4.:

<http://faveni.edu.br>

Faculdade FAVENI is a private college in Venda Nova do Imigrante - ES, Brazil. The classes for this semester started last Monday so now the students can access their college website powered by XOOPS!

I hope they like it, and you too!

The modules are as usual:

- News 1.68
- Liaise 1.27
- Mastop Publish 1.1
- Mastop Go2

In Module News I've changed the system comments for [Disqus](#), let's see how it works.

There are still some changes in progress but the site is good to go.

And let's spread XOOPS ALL around!! 🏆
